Experienced Full-stack .NET and MERN Developer with a strong background in both front-end and back-end development. Proficient in building web applications and services using the .NET framework, ASP.NET, C#, NEXTJS, NODE JS and a range of modern web technologies. Skilled in database design, API integration, and user interface development, with a focus on delivering robust and user-friendly solutions. Adept at collaborating with cross-functional teams to translate business requirements into efficient and scalable software solutions.

PROFESSIONAL EXPERIENCE

SYSCON INFOTECH PVT LTD, Andheri, Mumbai

JUN 2023 – Present

Software Developer

- Developed and maintained backend functionalities for logistics software, enhancing data management efficiency and reducing processing errors by 22%.
- Implemented CRUD operations to support seamless data flow, enabling real-time tracking and reporting for over 500 active users.
- Designed and developed RESTful APIs, improving system interoperability and reducing data retrieval times by 30%.
- Optimized database queries and backend processes, increasing application speed and reliability, leading to a 15% improvement in user experience.
- Conducted code reviews and performance tuning, maintaining high software quality and reducing post-deployment issues by 40%.

CONCENTRIX PVT LTD, Chandivali, Mumbai

FEB 2022 – FEB 2023

Technical Advisor

- Delivered technical support for ASUS products including laptops, desktops, and peripherals via inbound calls and email communication.
- Diagnosed and resolved hardware and software issues such as operating system errors, driver conflicts, connectivity problems, and BIOS settings.
- Provided step-by-step assistance for troubleshooting, product setup, firmware updates, and maintenance.
- Responded to customer queries through email with accurate, well-documented solutions and ensured timely follow-ups.
- Escalated unresolved or complex cases to the appropriate support teams while ensuring timely resolution.

OPTRON TECHNOLOGIES PVT LTD, Goregaon, Mumbai

MAY 2019 – JULY 2019

Intern Web Developer

- Assisted in designing and developing responsive websites using WordPress CMS, ensuring cross-browser compatibility and mobile responsiveness.
- Customized WordPress themes and plugins to meet specific client requirements and improve functionality.
- Wrote clean and efficient code using PHP for dynamic website features and backend integration.
- Created and managed MySQL databases for storing and retrieving website content and user data.
- Performed regular site maintenance tasks including updates, backups, and security checks.
- Worked closely with senior developers to troubleshoot bugs, optimize performance, and implement new features.
- Participated in code reviews and contributed to documentation to support team collaboration and project continuity.

EDUCATION

Little Flower's College of Information Technology Master of Computer Application Tilak Maharashtra Vidyapeeth University	2024 – Present
Little Flower's College of Information Technology Bachelor of Computer Application Tilak Maharashtra Vidyapeeth University	2016 – 2019
Malini Kishor Sanghvi College of Commerce and Economics Higher Secondary Certificate Maharashtra State Board	2014 – 2016
ST Joseph's High School Secondary School Certificate Maharashtra State Board	2013 – 2014

CERTIFICATION

SEED INFOTECH PVT LTD Full Stack Java Developer Dadar, Mumbai	2019 – 2021
SQUAD INFOTECH PVT LTD Full Stack .NET Developer Andheri, Mumbai	2022 – 2023

UDEMY CERTIFICATION

The Complete 2024 Web Development Bootcamp Instructor - Dr. Angela Yu, Developer and Lead Instructor Certificate no - UC-c7c639e3-3d54-4211-acb7-7be046acb014	2024
ASP.NET MVC Complete Guide using .NET Core Instructor - Sameer Saini Certificate no - UC-488ac7d0-3e17-4e51-95dd-1a2a5154ae34	2023
The Complete Android N Developer Course Instructor - Rob Percival, Marc Stock, Codestars Certificate no - UC-F1ZHJ855	2019

SKILLS

- .NET
- HTML
- ASP.NET CORE
- JAVA
- NEXTJS
- CSS
- FIREBASE
- REACT JS
- NODEJS
- AJAX
- ANDROID (JAVA)
- WORDPRESS
- SQL
- JQUERY
- CSHARP
- GIT/GITHUB
- JAVASCRIPT
- ASP.NET (WEB FORM)
- MONGODB (BASIC)
- TAILWIND

PROJECTS

LOGISTICS SOFTWARE SOLUTION

Build Using Asp.Net, SQL Technology Also Redeveloped It with MERN Stack

- Developed and maintained backend functionalities for a logistics software application, focusing on efficient data processing and system performance.
- Developed and executed CRUD (Create, Read, Update, and Delete) operations across various modules to support seamless data flow.
- Created and optimized complex forms for data entry, validation, and processing to streamline logistics operations.
- Developed dynamic reports for real-time tracking, performance analysis, and decision-making, enhancing business insights.
- Integrated backend services with front-end components, ensuring smooth data interaction and user experience.
- Optimized database queries and backend processes to improve application speed, reliability, and scalability.
- Conducted thorough code reviews, debugging, and performance tuning to maintain high software quality.

BILLING AND INVENTORY MANAGEMENT SYSTEM

Build Using C#, ASP.NET Web Forms, SQL Server

- Product Management: Add, update, and delete product records with categories and pricing.
- Inventory Control: Automated stock updates based on sales and purchase entries with low-stock alerts.
- Billing Module: Generated professional invoices with real-time calculation of taxes and discounts.
- User Authentication: enforced secure login system with role-based access control for admin and staff.
- Database Integration: Planned normalized SQL Server database to manage products, customers, sales, and inventory.
- Reporting: Developed printable sales and inventory reports with filters for date range and product types
